

How to double value for your university every term: an agile approach

Introducing

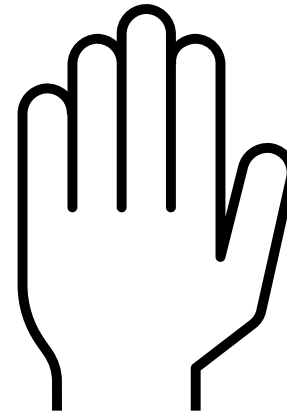

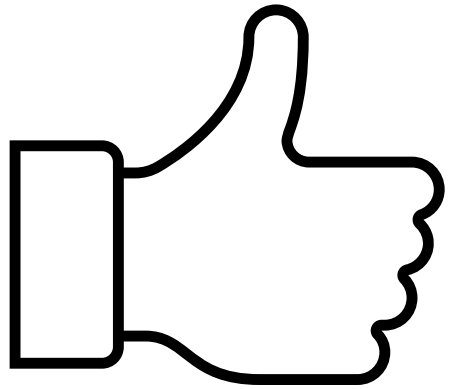

Andy Smith
Interim VP Ops
UCL

Sophie Harrison
Director of Delivery
UCL

How confident are you?

1 not confident to **5** very confident

A familiar scenario...

Clear strategy
over
fluffy long term vision

Strategic portfolio management **over** unconnected projects and programmes

Strong university
ownership and
partnership
over
committees sitting in
judgement

Lowering boundaries and
brave cross- functional
working
over
safety of working in silos

Delivery and Service
working together
over

"BAU is different and
needs a different
approach"

To really empower
over
empty slogans

Caring about doing
work
over
Caring about money
and permission

Being truly student
centred
over
working through proxies
and management

To have ambitious
vision
over
settling for incremental
improvement
